

SUNSONG®

BRACKET

Excellence Under Pressure!

POWER STEERING HOSE ASSEMBLIES WITH BRACKETS

Problem: Technicians in cold climate regions, face additional challenges when replacing power steering hoses that utilize support brackets. Due to heavy corrosion on the brackets, created from long term exposure to road salt and road debris, technicians are faced with having to reuse corroded and/or rusted brackets and bushings which often break during reinstallation.

Solution: Sunsong has added 27 New Power Steering Hose assemblies that include brackets and bushings, covering popular applications, providing a new alternative to existing hoses that do not include brackets. Previously these popular hoses were only available in the aftermarket without brackets.

BRACKETS

- Includes all brackets, bushings, mounts, and sleeves - no need to reuse rusted or worn-out parts. No need to transfer worn bushings/brackets to new hose, saving labor.
- Guaranteed OE Fit, Form and Function
- Sunsong OE quality assemblies offer substantial savings over OE dealership prices without any compromise in materials, features, or quality.

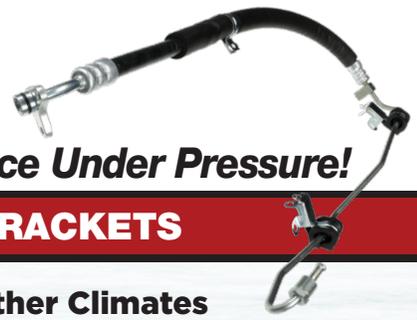

Exclusively available to the aftermarket thru Sunsong!
