SUNSONG®

OIL COOLER LINE ASSEMBLIES

EXCELLENCE UNDER PRESSURE

Sunsong Original Equipment Quality Oil Cooler Line Assemblies are engineered to match original equipment fit, function, and performance. Manufactured with premium materials and corrosion-resistant components, they deliver reliable performance, long service life, and the confidence technicians expect from every replacement.

KEY SELLING POINTS

Precision Engineering
Exact Original Equipment spec fit with all necessary brackets, molded plastic guards, wire clips, and protective sleeves included.

Safety Standards
Exceeds Original Equipment and SAE performance standards.

High Performance
Tested from temperatures ranging from -40° F to +300° F.

Corrosion Resistance
High-grade steel tubing with zinc-electroplated coating resists humidity, road salt, and grime.

Advanced Materials
Multi-layer reinforced rubber resists ozone, heat, and oil.

Quality Assurance
Multi-layer reinforced rubber resists ozone, heat, and oil.
