SUNSONG®

PRE-ASSEMBLED AIR CONDITIONING LINE ASSEMBLIES

EXCELLENCE UNDER PRESSURE

Sunsong Original Equipment Quality Air Conditioning Line Assemblies are engineered to match original equipment fit, function, and performance. Manufactured with premium materials and corrosion-resistant components, they deliver reliable hydraulic performance, long service life, and the confidence technicians expect from every replacement.

KEY SELLING POINTS

Precision Engineering
Exact Original Equipment spec fit with all necessary brackets, molded plastic guards, wire clips, and protective sleeves included.

Safety Standards
Exceeds SAE J2064C performance standards.

High Performance
Tested to withstand up to -40° F for superior cold weather performance.

Corrosion Resistance
High-grade steel tubing with zinc-electroplated coating resists humidity, road salt, and grime.

Quality Assurance
Leak-proof high-pressure crimp. Factory-tested for trouble-free performance.

Market Compatibility
Compatible with R12, R134A or R1234yf refrigerants.
